

Water Hose Nozzles and Watering Wands

Gilmour NELSON DRAMM®

▪ GHT connections

Gilmour models feature swivel connection to reduce kink potential, ensuring consistent flow. EZ Click actuation means one simple click to achieve continuous flow.

Features	Body Material*	Max. Pressure	Max. Temp.	Brand	Item No.

16" Rain Wand w/Foam Grip, Green	Aluminum	100 psi	100 °F	Dramm	8DPM0
16" Rain Wand w/Foam Grip, Berry	Aluminum	100 psi	100 °F	Dramm	9HZY5
32" L Aluminum Wand with Flow Control Lever Switch	Rezimar™	60 psi	100 °F	—	1HLV2

* Rezimar = metal/polymer blend.

For a better finish, start with HYDE.

Pivoting Nozzle Pole

A slide grip pivots the nozzle up to 135° to reach spray into tight spaces and awkward angles. Attaches to your existing garden hose for longer reach and spray patterns from fine mist to high power, 2.5 to 5 gpm. The adjustable nozzle has a rubberized tip to protect surfaces. It can be exchanged with any standard garden hose accessory to use the pole's pivot action and reach. The hose interface spins freely to prevent kinks. Features water/soap mixture control and easy switch to clean water only for rinsing.
