

**Straight Link Coil**

**Straight Passing Link Chain**

**General Utility Chain**

Durable, welded-steel links are for use as barriers or tailgates in addition to other applications where low-tensile strength is required. Zinc-plated for corrosion resistance. Straight and Twist Link chains meet NACM Standards.

Note: Do not use utility chains for lifting.

**CAMPBELL**  
**Grade 30 Connecting Links**

Attach accessories to connect chain pieces together. Drop-forged, heat-treated carbon steel is self-colored. Meet design requirements of Federal Specification RR-C-271D, Type II.

Note: Do not exceed the working load limit.

Trade Size	Working Load Limit	Item No.
1/2 in	1,400 lb	49JN74
3/8 in	2,000 lb	49JN75
5/8 in	2,800 lb	49JN76

**Grade 70 Double Clevis Links**

Reusable, easy-to-install connectors for short- or long-term use. Steel with natural finish.

Note: Not for overhead lifting.

Trade Size	Working Load Limit	Item No.
3/8 in	4,700 lb	9XHY2
1/2 in	6,600 lb	9XDM5
3/4 in	11,300 lb	9XEF4

**Quick Links**

Large opening and threaded locking sleeves make attachments easy and secure. Zinc-plated, low-carbon steel prevents rusting. Grade 316 stainless steel provides corrosion resistance and extra strength.
