KENNEDY **Hallowell**

Pegboard Panels & Strips

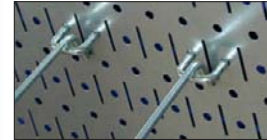

These pegboard panels have round or square holes and mount to a wall. They accept a wide range of hooks, bins, shelves, toolholders, and other accessories. Square holes and can typically support more weight than round-hole pegboard panels. Narrow pegboard strips mount to a wall and take up less space than pegboard panels. Multiple panels can be mounted next to each other to expand the storage area. Kits include an assortment of hooks and other accessories that mount to the pegboard panels to create a storage system.

Round-Hole Pegboard Swing Panels

- Hold a large amount of tools and parts
- Mount multiple panels side-by-side for easy access
- Designed to pivot at the wall mounting

Swing panels mount to wall brackets that allow the panels to swing open and closed. Items can be stored and accessed on both sides of the panels, which allows these pegboards to hold more items than standard wall-mount pegboard panels. The swing panels have round holes that accept hooks, toolholders, and other accessories. Multiple panels can be mounted next to each other to expand the storage area. Include wall mounting bracket and hardware.

Square-Hole Pegboard Floor Racks

Blue panels are held in a freestanding frame and do not need to be mounted to a wall. Items can be stored and accessed on both sides of the panels, which allows these pegboard racks to hold more items than standard wall-mount pegboard panels. Square-hole pegboard can typically support more weight than round-hole pegboard. These racks accept a wide range of hooks, bins, shelves, toolholders, and other accessories that are compatible with square-hole pegboard.
