

A-Frame Mobile Pegboard Racks

A-frame mobile pegboard racks consist of pegboard panels in a freestanding A-shaped frame. Also known as pegboard trucks, they can be rolled for cleaning and repositioning. Items can be stored and accessed on both sides of the racks. These racks accept a wide range of hooks, bins, shelves, toolholders, and other accessories that are compatible with the shape of the holes on the pegboard.

* With brake.

Round Hole Pegboard Hook Assortment G0587

Pegboard Accessories

- Round and slotted accessories are for 1" hole spacing; square accessories are for 1 1/2" hole spacing

These hooks, bins, and toolholders attach to pegboard and are used in various combinations to create pegboard storage systems for organizing and displaying small parts, tools, and merchandise. The accessories can be reconfigured or replaced as storage needs change.

Round-Hole Plastic Bin Kits and Shelf Tray—Yellow molded bins include mounting clips. Clips remain securely fastened to the board; bins are removable.
