

## Metal Recycling Cans

Collect recyclable materials in office buildings, hotels, and other public spaces where appearance is important. Metal provides a more finished look than plastic cans.

## Sustain Series Square Metal Recycling Stations

Integrated plastic liners with venting channels enable easy removal of trash bags. Adjustable, easy-glide feet allow container to be moved efficiently and ensure a level placement. Modular system allows stations to be customized to each program's needs. Colored lids and labels make sorting recyclables easier.

## Rectangular Plastic Recycling Wastebaskets

Fit under standard-height desks where floor space is limited or place near workstations and conference rooms. Plastic resists dents and corrosion, and is lighter than metal so it's easier to empty when full.

## Slim-Profile Rectangular Plastic Recycling Cans and Lids

Narrower than standard rectangular cans, use in areas that generate medium-to-high volumes of recyclables, including copy rooms and breakrooms. Place flush against a wall to limit the amount of floor space used. Order cans and tops separately.

## Square Plastic Recycling Cans

Open-top cans are used in mail rooms, copy rooms, break areas, and often serve as a repository for several workstations. Place flush against a wall or in a corner to save floor space.

Cap.	H	Width/ Diameter	D	Color	Item No.
23 gal.	33 in	15 1/2 in	16 1/2 in	Blue	5M822
35 gal.	27 1/2 in	19 1/2 in	19 1/2 in	Blue	6HH26
50 gal.	34 1/4 in	19 1/2 in	19 1/2 in	Blue	6HH27

## Glutton Series Rectangular Plastic Recycling Station

Multiple containers in a single unit encourage recycling and help facilitate sorting. Holes are labeled or are shaped to accept a specific shape, such as round cans or paper.
