

## Recycled Plastic Trash Bags

### ■ LLDPE

Heavy-duty construction to resist tearing and punctures. Strong and durable for industrial and factory applications. Suitable for transporting trash and keeping trash cans clean in LEED-certified facilities.

## Pest-and Rodent-Repellent Trash Bags

Bags have natural mint fragrance added to repel rats, raccoons, and other rodents while remaining safe for humans. HDPE bags are lightweight and moisture-resistant for collecting soft refuse such as paper towels, paper, and linen. LLDPE bags are tear- and puncture-resistant for collecting heavy refuse and items with sharp corners, such as cardboard in kitchens.
