## Carpet Extractors

### STRIVE SERIES WITH READYSpace

ReadySpace technology allows carpets to dry and be ready for foot traffic in 30 min. or less. Rollers and deep cleaning brushes can perform interim and restorative carpet cleaning.

### SELF-CONTAINED EXTRACTORS

**EX-SC-1020**—Extractors have a drop-down hose for easy emptying, a solenoid valve that helps prevent drips, and simple controls for ease of use.

**Speed EX Compact**—Electric extractor features lift-off solution and recovery tanks for easy cleaning and filling. Noncorrosive aluminum scrub head and rotomolded tanks for durability. Handle is adjustable for ease of use and folds down for storage.

**Falcon 2800 Plus**—Self-propelled extractor has a 75-ft. power cord and electronic speed control for greater efficiency. Rear-mounted pivoting head provides greater solution recovery for faster drying time. Includes a prespray wand for cleaning heavily soiled areas.

**Falcon Ultra Battery**—Self-propelled front-mounted head allows for easy maneuvering around corners and narrow aisles. Six spray heads with 100 psi for enhanced solution dispersal and better cleaning performance. Runs up to 4 hr. on a single charge.

### PORTABLE EXTRACTOR

**Marathon 350 Carpet Spotter**—Spray extractor cleaner tackles upholstery, staircases, drapes, and other challenging cleaning applications. Perfect for handling small carpeted areas. Highly mobile unit can be transported from room to room rapidly. Weighs only 22 lb.

## Carpet Cleaners for Extraction Machines

Extraction machines use low-foam cleaners for high-pressure upholstery and carpet cleaning. Combined with these specialized cleaners, extraction machines suction dirt and stains from carpet and fabric fibers in residential homes, retail, schools, healthcare, and offices.

## Defoamer for Carpet Extraction Recovery Tanks

Ready-to-use liquid defoamer is used in the recovery tank of hot water extraction machines to keep dirty water and cleaning solutions from foaming. These concentrated antifoam liquids control excessive foam in hoses, tools, and recovery tanks to protect carpet extractor motors from damage including clogging, corrosion, or electrical shorts.
