Black	—	S9510	21UN86

Bionic Faceshield Assemblies

- Meets ANSI Z87.1-2010 standard when headgear or bracket is used in conjunction with proper visor to create complete faceshield
- Meets CSA Z94.3

Clear polycarbonate window provides high clarity and is ideal for heavy-duty impact and heat-resistance applications.

4RB55

Description	W	Visor Dim. H	Thickness	Mr. Model	Item No.
Ratchet Headgear with Visor	14 1/4 in	9 1/2 in	0.04 in	S8500	4RB55
Replacement Visor				S8550	4RB56

Faceshield Headgear

- Meet ANSI Z87.1-2015 standard when headgear or bracket is used in conjunction with proper visor to create complete faceshield

Polycarbonate visors allow high clarity and are ideal for heavy-duty impact and heat-resistance applications. Propionate and PETG visors are suitable for splash, spray, and light impact applications. High-heat series visors are able to retain shape for longer periods of time at a higher temperature.

Description	Visor Material	Visor Color	W	Visor Dim. H	Thickness	Mr. Model	Item No.
Ratchet Headgear (Visor Sold Separately)							
Ratchet	Plastic	Blue	6 in	6 in	—	7000002290	4YZ58

V-Gard Standard Frame with Debris Control 12V755

34G163

V-Gard Frames and Visors

- Meet ANSI Z87.1-2010 standard when headgear or bracket is used in conjunction with proper visor to create complete faceshield

Frames—Sloped design has gutters to guide liquids, chips, and other materials off the frame and away from the line of sight.

Visors—Polycarbonate visors are resistant to impact and splash hazards. Antifog and antiscratch coating.

Faceshield Assemblies

- Meet ANSI Z87.1-2015 standard when headgear or bracket is used in conjunction with proper visor to create complete faceshield
- Assemblies meet CSA Z94.3-07 CUL certified

Polycarbonate visor provides high clarity and is great for heavy-duty impact and heat-resistance applications. Crown/chin guard on 23X909 offers extra side and bottom protection from splashes, dust, and contaminants.

DP4 Faceshield Assembly 4PE38 combines full-face coverage with shade W5, W6, or W8 flip visor options, eliminating the need to wear 2 protective devices. Provides UV/IR protection during grinding, cutting, and brazing operations.
