

Find Reflective Aluminized Gloves on page 1663.

Heat-Resistant Knit Gloves

Loop-in style gloves reduce snags and increase longevity. Loop-out style protects against abrasion and provides nonslip grip.

COTTON TERRY CLOTH GLOVES

Reversible, seamless gloves provide 4 wear surfaces. Insulate against elevated temperatures.

KEVLAR/COTTON BLEND TERRY CLOTH GLOVES

Reversible and seamless with knit wrist.

KEVLAR COTTON LINER TERRY CLOTH GLOVES

Cotton interior absorbs moisture. Ambidextrous and seamless.

NOMEX/KEVLAR GLOVE

Ambidextrous glove has cotton lining.

C-TREAD GLOVES

Ambidextrous gloves have a C nitrile coating to improve grip. Inner knit layer bonded to waffle design. Cushioned outer cotton/poly layer resists heat. 1AHE9 features a vaporproof membrane. 2ENE3 is uncoated.

KEVLAR C-TREAD COATED GLOVES

Ambidextrous gloves have a C nitrile coating to improve grip. Inner knit layer bonded to waffle design. Kevlar/cotton blend outer layer protects against cuts and slashes.

COATED HEAVYWEIGHT COTTON BLEND GLOVES

Glove-within-glove design. Nitrile C coating for added thermal protection, grip, and abrasion resistance. Ambidextrous with seamless knit construction.

HEAVYWEIGHT TERRY CLOTH GLOVES

Lined, reversible gloves have extra heavyweight material for extended wear and heat protection.

FLAME-RETARDANT TERRY CLOTH GLOVES

Ambidextrous, lined gloves have extra heavyweight material.

MCR SAFETY MEDIUMWEIGHT

Seamless reversible gloves resist heat and abrasion for general purpose applications.

MCR SAFETY HEAVYWEIGHT

Durable fabric protects hands from heat and cut hazards.
