

Arc Flash & Flame-Resistant Collared Shirts

- Meet NFPA 70E standards
- Available in Men's and Women's sizes from S to 4XL at Grainger.com

Made from self-extinguishing materials to protect the arms and torso from burns. Collared shirts cover the neck, have long sleeves, and offer a professional appearance.

Arc Flash & Flame-Resistant T-Shirts

- Meet NFPA 70E standards
- Available in Men's and Women's sizes from S to 4XL at Grainger.com

T-shirts have a casual appearance and are generally cooler with a looser fit than collared shirts. Can be layered under other protective garments.

Arc Flash & Flame-Resistant Henley, Polo and Turtleneck Shirts

- Meet NFPA 70E standards
- Available in Men's and Women's sizes from S to 4XL at Grainger.com

Henleys are collarless shirts that have buttons at the front neckline allowing workers to adjust shirt opening, making them cooler and more comfortable.

Polos are collared shirts that have a front zipper to allow workers to adjust shirt opening.

Turtlenecks have a high, tight-fitting neck to keep workers warm. Can be used for layering under other garments.
