Arc Flash & Flame-Resistant Jackets and Coats

- Meet NFPA 70E standards
- Available in Men's and Women's sizes from S to 4XL at Grainger.com

Help protect workers from burn injuries in areas with sparks, open flame, and other potential fire hazards. Typically worn over base layer arc flash and flame-resistant garments to keep workers warm in cold conditions. G7271, G7272, and K4822 have attached hoods.
