

Antislip Stair Tread Covers & Nosings & Landing Cover

■ For indoor/outdoor use

Stair Tread Covers & Nosings—Help provide traction and feature tapered back and beveled edges for additional safety. Predrilled holes offer easy installation on most step surfaces.

■ Meet ASTM and ADA Standards, except 20X803 to 20X805

Landing Cover—The full grit surface on this stair-landing cover provides slip resistance across the entire surface which increases slip resistance over stripped surfaces.

Antislip Stair Nosings & Treads

■ For indoor/outdoor use

Stair Nosings—Grit-coated nosings reprofile the leading edge of stairs, increase the shoe contact area, and guard against slip hazards from weather or fluid spills.

Stair Treads—Treads cover 6" or less of a stair tread to provide traction and wear resistance. Install over an existing stair tread or structural surface to prevent slipping in wet, oily, or dirty environments.

Antislip Deck Sheets & Plates

■ Full coverage grit

■ For indoor/outdoor use

The surface on these deck sheets and plates provide slip resistance across the entire surface over stripped surfaces. Grit-coated deck plates provide traction and slip protection on metal grates or smooth concrete floors.
