

LED Road Flares

Lights last longer and are generally brighter than incendiary road flares and can be seen from a longer distance. Flares don't damage pavement or create waste that requires cleanup. Reusable, water-resistant flares require batteries to operate. The magnetic base lets you elevate the light for better visibility. **Baton-style flares** feature a nonslip textured grip. **Puck-style flares** offer a crush-resistant lens and rubber feet.

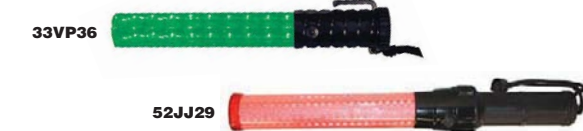

Number of Flares Included	Max. Run Time	Power Source	Includes	► CHOOSE: LED Color	Brand	Item No.
Baton Style						
2	300 hr	(8) AA Batteries (Not Included)	(2) Weighted Bases, Storage Bag	Amber, Blue, Red, Amber or Red (Selectable), Blue or Red (Selectable)	EMI	K7716
4	Flashing/72 hr Steady	(16) AA Batteries (Not Included)	(4) Weighted Bases, Storage Bag		EMI	K7717
5		(20) AA Batteries (Not Included)	(5) Weighted Bases, Storage Bag		EMI	K7718
Puck Style						
1		(4) AA Batteries (Not Included)	—	Red, Yellow	Flarealert	H5600
1				Blue, Green, White	Flarealert	H5601
3				Red, Yellow	Flarealert	H5602
3	60 hr	(12) AA Batteries (Not Included)			Flarealert	H5603
8	Flashing/20 hr Steady	(32) AA Batteries (Not Included)	Storage Bag	Blue, Green, White	Flarealert	H5604
8				Red	Flarealert	3LXD9
8		(32) AA Batteries (Included)	(8) Cone Adaptors, (8) Weighted Bases, Storage Bag	Red, Yellow	Flarealert	H5595
8				Blue, Green, White	Flarealert	H5596

Incendiary Road Flares and Storage

Flares are UL Listed ■ Burn color is red
Single-use flares use a flame to illuminate an area for up to 30 minutes. Flares use a chemical reaction to burn and don't require batteries. They require special handling and storage since they create a fire hazard and can potentially damage roadways and equipment. Red polypropylene **storage containers** keep roadside incendiary flares safe until needed. Equipped with a handle for easy transport.

Description	Burn Duration	Flare Stand Included	Item No.	Pkg. Qty.
Incendiary Road Flares				
Road Flares	10 min	No Stand	349AH1	144
Road Flares	20 min	No Stand	45MG25	72
Road Flares	30 min	No Stand	45MG26	36
Road Flares	30 min	Spike Stand	8FXC0	36
Incendiary Road Flare Storage				
Nonspike Flare Case—Holds 12 Flares			2KCW4	1
Nonspike Flare Case—Holds 16 Flares			2KCW3	1

LED Traffic Batons

Handheld batons alert drivers and pedestrians of hazards or changes in traffic conditions. They're often used to direct traffic in parking lots and other low-speed conditions. All (except 33VP36 and 39F104) are weather resistant. Baton handles have a nonslip textured grip. Sight range of up to 1 mi.

Max. Run Time	Power Source	L	Includes	► CHOOSE: LED Color	Brand	Item No.
72 hr Flashing/72 hr Steady	(2) D Batteries (Not Included)	21 1/2 in	Wrist Strap	Red	EMI	8CCX7
90 hr Flashing/90 hr Steady	(3) AA Batteries (Not Included)	13 1/2 in		Red, Blue, Amber	EMI	K7728
300 hr Flashing/72 hr Steady	(4) AA Batteries (Not Included)	13 1/2 in	Belt Clip, Magnetic Mount Tailcap, Wrist Strap	Blue or Red (Selectable), Amber or Red (Selectable)	EMI	K7729
90 hr Flashing/90 hr Steady	(4) AA Battery (Not Included)	13 1/2 in		Green or Red (Selectable)	EMI	33VP36
90 hr Flashing/91 hr Steady	(2) C Batteries (Not Included)	16 1/4 in	Wrist Strap	Red	Railhead Gear	39F104
300 hr Flashing/72 hr Steady	(2) D Batteries (Not Included)	15 1/2 in	Belt Clip, Magnetic Mount Tailcap, Wrist Strap	Red	Railhead Gear	52JJ29
	(4) AA Batteries (Not Included)	18 3/4 in		Amber or Red (Selectable)	EMI	54DH67

Lightsticks

Lightsticks snap and shake for 360° illumination and visibility up to 1 mile. Nontoxic, nonflammable, and waterproof. ChemLight models meet DLA and NAMS Military Specifications. **Infrared lightsticks** require night vision goggles.
