

Commercial Gate Operators

- 115V, single-phase
- 1/2-HP motor
- Continuous time interval

Includes a built-in LiftMaster 312HM radio receiver for use with DIP Switch and Security+ remote controls. Rated for 100 cycles per hr. Commercial Gate Operators are compatible with Garage Door Openers 46X657 and 6UR95, available on Grainger.com.

Slide Operator—Unit has alarm reset button, surge/lightning protection, weatherproof polyethylene cover, high-speed precision limit switches, and a gold zinc-plated chassis to help reduce corrosion. For use with slide gates, not included.

LiftMaster

Swing Operator—Has “nonscissor action” function to help reduce injury. Feature an alarm reset button, surge/lightning protection, weatherproof polyethylene cover, high-speed precision limit switches, and a gold zinc-plated chassis to help reduce corrosion. For use with swing gates, not included.

Barrier Operator—DC-powered unit is for right- or left-handed operation. Features built-in battery backup, control inputs, inherent obstruction sensing, LED indicators, and an aluminum alloy chassis that resists corrosion. Gate Arm sold separately, go to Grainger.com and search for Gate Arms.

Accessories—Photo Eyes Safety Device 5MKL9 stops and reverses the gate when an object is detected in its path.
