Jersey Traffic Barriers

Fill versatile plastic barriers with sand or water for stability; empty barriers for easy transport. Interlocking joints let you connect multiple units to cover larger areas. Commonly used to separate

lanes of traffic. Offers diamond grade retroreflective stripes for visibility. Accepts a standard barricade light, sold separately on page 1927.

H	W	L	►CHOOSE: Color	Item No.
24 1/2 in	16 1/2 in	58 1/4 in	Yellow, Orange, White, Spruce Green	J2254
34 in	18 in	73 3/4 in	Yellow, Orange, White, Spruce Green	J2255

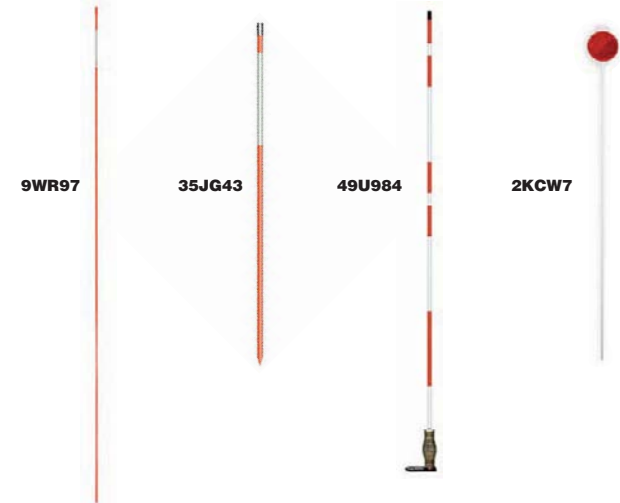

Traffic Delineator Posts

Plastic posts have high-intensity, prismatic retroreflective collars with (2) 3 in H reflective stripes. Each feature a flexible, rugged design, allowing them to return upright after impact. Posts are impact-resistant and attach to bases with 2

quick-release pins. Ideal for parking lots, pedestrian walkways, and temporary work zones. Butyl **Adhesive Pads** offer quick, reliable adhesion for temporary installation of **Surface Mount Posts**.

Reflective Property, Driveway, and Hydrant Markers

Property and Driveway Markers push into the ground on property lines or at the edge of a driveway. **Hydrant Markers** make hydrants more visible from a distance and help to locate them under snow drifts.

Traffic Delineator System

■ Meets MUTCD

Portable delineator posts safely mark proper traffic flow for parking lots, roads, and school zones. System guides motorized and pedestrian traffic on roadways and paths.

Includes	Delineator Color	Delineator Tape Color	Base Dim.	Item No.
(30) Posts, (30) Bases, (6) 60 ft Rolls of Flags	Orange	Silver	15 x 17 in	26K995

Marking Stakes

Mark underground pipelines, cables, etc. Reinforced polymer bends and will not break. Reflective sheeting on 6G746 and 6G747 makes stakes visible 24/7.
