Unlocked Smartphones

- Temp. range: -13° to 131°F
 - Drop resistance: up to 6 ft.
 - Waterproof: up to a 5-ft. depth for 35 min.
 - Compatible network: GSM
 - Platform OS: Android
- Phones are rugged and ideal for use in dusty and dirty locations. Their scratch-resistant display is viewable in bright sunlight and the phone can be used when wearing gloves. Phone cases are bleach and chemical resistant; can be scrubbed with soaps and disinfectants for a thorough cleaning. Bluetooth compatible; allow users to take and share both photos and videos. Phones meet IP68, IP69, and Mil Spec 810H. **S42 Series** features a case with antibacterial protection to fight bacterial growth. **S62 Pro Series** has an integrated FLIR thermal camera. Eliminates the need to carry a separate thermal imaging device. Measurable temp. range: -4° to 752°F. Unit has a programmable key that can activate the Push-To-Talk (PTT) mode.
