Welding Blankets, Rolls and Pads

Welding Blankets—Use to protect workers and equipment from intense heat, flame, welding sparks, and molten metal splash.

Welding Blanket Rolls—When you need extended lengths or other custom size blankets, this economical solution can be cut to length.

Welding Pads—Welding pads are made with 1" of high-heat insulation, encased by a solvent-, abrasion-, and puncture-resistant material. Can be used as kneeling pads, heat shield when working on hot vessels, and for insulating.
