

Oil Skimmers

These skimmers are for removing oil from the surface of coolant or water. Ideal for machining centers, parts washers, and sumps.

DISK SKIMMERS

Remove up to 1½ gph. Boomerang blades wipe more oil. 110V, 1-phase, 60 Hz motor. 12" disk.

3AU32—Housing and frame are made of polymer.

3EJF5—Housing and frame are made of carbon steel.

TUBE SKIMMERS

6KYV8—Oil Viper is the highest capacity industrial tube skimmer. It removes up to 100 gph using a ¾"-dia. tube that floats on the surface of the water to collect oil. 360° wiper cleans tube completely. Carbon steel construction. 110/220V, 1-phase, ½ HP, 60 Hz motor. Tubes 6KYV9 through 6KYV3 sold separately, see table below.

TubeTastic!—Light capacity, ¾"-dia. tube collects up to 1½ gph. Mounts to side of tank. 110V, 1-phase, 60 Hz motor. Tubes 1MEC2 thru 1MEC6 sold separately, see Grainger.com.

BELT SKIMMERS

3BU53 to 3BU56—Collect up to 1 gph. Made of polymer. Include 1"W elastomer belt. 110V, 1-phase, 60 Hz motor.

29UJ11 to 29UJ14—Collect up to 1 gph. Include 1"W synthetic belt. Motor can use 110V outlet or can be directly wired to 12/24V power.

6Y757 to 6Y760—For use in coolant sumps and parts washers. Include 1"W stainless steel belt and 24-hr. timer. 110V, 1-phase, 60 Hz motor. 3-ft. discharge hose. Can be used with Decanter 6Y756, sold separately on Grainger.com.

6Y752 and 6Y753—Remove up to 6 gph. For use in larger coolant sumps and parts washers. Include 2"W stainless steel belt. Housing and frame are made of polymer. 110V, 1-phase, 60 Hz motor.

MAGNET-MOUNT OIL SEPARATOR

Pumps oil-laden coolant through a filter media chamber which traps debris and tramp oil. The oil is drained away and clean coolant is continuously returned to the coolant sump. Operates at 2.8 gpm. Requires Electric pump and float 45AP80 or Pneumatic pump float 45AP81 sold separately, see table below.

ACCESSORIES

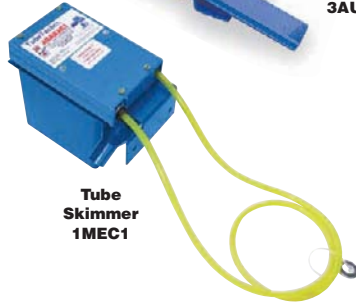

6KYV5 has a 0% to 32% Brix range.

6KYV6 has 0% to 10% Brix range.

6KYV7 has a 0 to 14 pH range.
