Heavy-Duty Industrial Hydraulic Press Sets and Accessories

ENERPAC

Arbor Presses—Foot mounting holes allow vertical or horizontal positioning. Slotted back simplifies loading and unloading of longer parts. Order pump and cylinder separately.

C-Clamp Presses—18Y517 and 18Y518 are operational in all positions and include foot mounting holes for vertical or horizontal positioning.

Bench Press—Use where there is limited space, for quick press access, or for smaller parts. Includes 6-ft. thermoplastic hose. Cylinder mounting adapter allows lateral positioning along rails. Ships with predrilled mounting holes.

H-Frame Presses—Feature welded H-frame for longer life. Each includes heavy-duty steel pump mounting bracket, 10,000-psi pump, cylinder, hose, gauge, and gauge adapter. 3KD82 and 3KD81 feature 10-ft. control pendant; roller head design allows side-to-side movement and cylinder locking. Presses with over 10-ton capacity are equipped with an exclusive Hydra-Lift bed for adjustment.
