

Complete Appliance Water Filtration Systems

All systems and replacement cartridges are certified for use in potable water applications.

Coldrink 2-MC² System, 6XWU0—Improves the taste of fountain beverages and helps retain the beverage's carbonation. Micro-Pure II media helps inhibit bacteria growth. Protects beverage system seals, pump, tubing, and small orifices from abrasive wear, clogging, and corrosion.

QL3-BH2 Coffee Filter, 6XWU1—Provides premium quality filtered water for coffee and beverage applications. Reduces scale buildup and prevents lime scale from forming in brewers. Micro-Pure II media helps inhibit bacteria growth.

Kleensteam II Single System, 5WFG5 & Twin System, 6XWU2—Systems deliver high-quality filtered water for steam applications, and have scale inhibitors and deliming capabilities. Cartridge design is suitable for low- or high-flow capacity steamers. Improve the performance and help extend the life of steam equipment.

Kleenware HTS-11 System, 5WFH4—Inhibits mineral deposits and provides corrosion protection. Helps extend the life of food service equipment. Suitable for use in commercial glassware washers, dishwashers, and warewashing booster heaters.

SR-X Scale Inhibitor Feeder and Deliming System, 5WFH3

Provides scale reduction for steam applications as well as deliming capabilities. Include clear SR-X housing, SS-10 cartridge, dip tube assembly, and 2.2-lb. package of ScaleKleen for scale removal and deliming.

E10 Coarse, 5WFH1 and 5WFH2—Prefilter cartridges feature tightly spun media.

Insurice Filtration Systems, 5WFG3 and 5WFG4

Reduce problems in ice machines caused by scale buildup from dirt and dissolved minerals. 5WFG4 features a water shutoff, flushing valve, and outlet pressure gauge.

Insurice Single PF-i2000, 6XWT9—Filter system reduces scale buildup from dissolved minerals and dirt, and helps reduce clogging of distribution lines, evaporator plate, and pump. Micro-Pure II media help inhibit bacteria growth.

QC7i Filter Head Assembly 5WFG6 and 5WFG8

Include a built-in water shutoff valve, pressure gauge, and mounting hardware. Accept many Everpure specialty cartridges including cartridges for ice, coffee, espresso, and fountain beverage machines.

ScaleKleen Scale Remover/Delimer, 5WFH0—Can be fed into the water system without the use of hazardous chemicals or special piping.

Replacement Filter Cartridges

▪ Max. pressure: 125 psi
