

1-800-GRAINGER (472-4643)

**Digital/Wireless App Manifolds**

**Yellow Jacket**—ManTooth gauges provide a wireless connection to your smart device so you can test without losing refrigerant (no hoses or manifolds required). Calculate and display pressure, temp., superheat and sub-cooling on your device. Screenshot feature lets you save and share readings. Rechargeable battery and USB cable included. 39DM72 includes a case. 48WE24 includes dual non-tethered pressure/temperature gauges, 2 wired temperature clamps, and 1 interchangeable vacuum gauge.

**Parker**—Lightweight wireless sensors can sync with a smart device app so you can read and display a system's real-time pressure and temp., plus display superheat and sub-cooling without using hoses or manifold gauges. Case included.

**Testo**—Features a large back-lit digital display, internal vacuum sensor, data logging and printing capabilities, and a third probe port. Simultaneous superheat and sub-cool calculations and 40 refrigerant profiles (more are downloadable). Includes a sight glass, 2 NTC temp. clamps, USB cable, batteries, and case.

**Manifold Gauge Sets**

**Yellow Jacket**—Manifolds offer 60" UL high-pressure hose sets. Aluminum 4-valve manifolds feature 3/8" vacuum port and exclusive 100 mesh filter within each flare fitting to keep out particulate material and extend seat life. All manifold bodies have lifetime manufacturer's warranty. Gauges offer 1% full scale accuracy and polycarbonate crystal cover to prevent face damage. 3/8" gauges have Flutterless technology. Gauges are adaptable to other industry manifolds.

**JB Industries**—20HK13 and 36P061 feature full-flow design for faster evacuation and charging. 14X855 and 14X854 have internal metering ball valves for liquid charging; no liquid charging adapter required. Most have 3/8" gauges with 3-refrigerant scales; 14X858 features 4" gauges with 4-refrigerant scales. Class 1. 35YX49 and 36P061 have secure seal fittings.

**Imperial**—Precision flutter- and pulsation-resistant gauges with protective boots. PolarShield high-pressure UL Recognized barrier hoses. 2-valve manifolds are brass; 3- and 4-valve manifolds are aluminum. 4-valve manifolds feature 3/8" vacuum port. 1YNU9 has integrated liquid low side charger.

**Dayton**—All units include 72" hose sets. 4PDF8, 4PDF7, and 4PDG1 use flutter-resistant dry gauges.
