Air Handler® Antimicrobial Pleated Air Filters

- MERV 8
- High capacity
- Synthetic media
- Moisture-resistant die-cut beverage board frame
- Wire-backed design
- UL Classified

Treated with an antimicrobial agent that prevents mold and mildew from growing on the air filter. Ideal for commercial buildings, healthcare facilities, and locations where moisture is present and mold or mildew may grow on standard filters.

Air Handler® Hydrophobic Pleated Air Filters

- MERV 8
- High capacity
- Synthetic media
- Plastic frame with mesh support
- UL Classified

Filters not only remove contaminants from the air, they also remove moisture from the air. Commonly used to filter the air intake in dehumidification and swimming pool equipment.

Air Handler® Odor Removal Panel Air Filters

- Moisture-resistant die-cut beverage board frame
- ASHRAE compliant

Activated charcoal absorbs unpleasant odors and other gaseous contaminants in the air stream to improve indoor air quality.

For Nuisance Odors, Pleated, Impregnated Carbon—Ideal for removing nuisance odors such as pet smells, tobacco smoke, food odors, and mustiness from the air.

- Carbon concentration: 20 g/sq. ft.

For VOCs and Exhaust Fumes, Non-Pleated, Active Carbon Honeycomb

Use to trap odors, VOCs (volatile organic compounds, such as fumes given off by paint or cleaning chemicals), exhaust fumes, and other gaseous contaminants. Commonly used in industrial areas to remove unpleasant smells in the air and capture harmful airborne pollutants to improve indoor air quality.

- Carbon concentration: 0.45 g/mL

Air Handler® High-Temperature Pleated Air Filters

- MERV 8
- Standard capacity
- Synthetic media
- Galvanized steel frame
- Wire-backed design
- Max. temp.: 400°F
- UL Classified

Withstand higher temperatures than other types of pleated air filters. Suitable for air intakes on drying ovens and other high-temperature baking applications.
