Fume Extractors

Benchtop Soldering Fume Extractor—Designed to be used in either a vertical, standing up position or a horizontal, laying down position. Horizontal position increases efficiency and airflow. Standard activated carbon filter absorbs up to 80 percent of odors from the air.

Soldering Fume Extractor—This extractor features powerful suction, quiet operation, High, Medium, and Low airflow adjustment, free-standing ducts, and a filter replacement indicator that notifies you when it's time to replace the filter.
