LED Safety-Rated Handheld Flashlights

Flashlights illuminate areas where flammable, combustible, or ignitable materials are present. They keep arcs and sparks contained to reduce the risk of becoming a source of ignition for a fire or explosion. These hazardous location flashlights carry class and division ratings as defined by National Electrical Code (NEC) standards for use in areas with specific hazards.

Maximum Brightness	Run Time at Maximum Brightness	Maximum Beam Distance	Beam Pattern	Number of Light Output Modes	Body Color	Body Material	Switch Location	Switch Type	Includes Batteries	Charger Style Included	Mount Type	Brand	Item No.
