LED Safety-Rated Headlamps

Safety-rated headlamps illuminate areas where flammable, combustible, or ignitable materials are present. They keep arcs and sparks contained to reduce the risk of becoming a source of ignition for a fire or explosion. These hazardous location headlamps carry class and division ratings as defined by National Electrical Code (NEC) standards for use in areas with specific hazards. Class I and II headlamps also carry group ratings designating use in locations with specific types of gas, vapor, or dust.

Maximum Brightness	Run Time at Maximum Brightness	Maximum Beam Distance	Beam Pattern	Number of Light Output Modes	Body Color	Body Material	Switch Location	Switch Type	Battery	Mount Type	Brand	Item No.
Safety-Rated Headlamps with Helmet Clip												
Class I Div. 1												
120 lm	24 hr	111 m	Spot	3	Green	Polymer	Body	Push Button	Requires 2 AA	Clip	Nightstick	329FP9
