## LED Penlights & Inspection Lights

Lights withstand heavy use for building and equipment inspection, facility maintenance, automotive and machinery repair, and other applications where they may be subject to dirt, grime, impacts, and drops. They shine a small, focused light beam onto specific areas or into tight spaces, such as control panels, electrical boxes, and engine compartments.

Maximum Brightness	Run Time at Maximum Brightness	Maximum Beam Distance	Beam Pattern	Number of Light Output Modes	Body Color	Body Material	Switch Location	Switch Type	Rechargeable	Battery	Mount Type	Item No.
