

1-800-GRAINGER (472-4643)

FLUKE

Removable Screen Digital Multimeters

- Full size
- CAT III 1000V; CAT IV 600V rated

Display can be detached from meter and mounted up to 33 ft. away for easy, hands-free viewing. The meter stays connected to the test point while the operator can maintain a safe distance. Ideal for hazardous situations such as moving machinery, automotive diagnostics, or applications that produce arc flash. Functions as a standard multimeter when screen is attached. Includes built-in thermometer, batteries, and test leads.

Analog Multimeters

Instruments use color-coded test leads to measure electrical currents and display readings on an analog scale. Can be used to monitor fluctuations and trends and will not freeze up in severe hot or cold environments. Include batteries and test leads.

Triplett—29FK30 to 29FK33 are specially designed for measurement tasks on railroad coding equipment. 29FK34 to 29FK36 are designed for use by telephone industry workers.

Simpson—4CWP2 is specifically designed for railroad testing. 1T779 and 1T848 feature a resettable relay overload protection circuit. 1TC61 and 1TC62 have high visibility cases that offer protection from drops and impact.
