

1-800-GRAINGER (472-4643)

Combination Tachometers

Handheld instruments offer surface and noncontact measurement choices. Each includes batteries. NIST models include certificate and calibration documents.

EXTECH

Tachometers and Laser Tachometers—Laser light source, except 8PMK7 and 22DC94 have visible light source. Each includes tip(s) and wheel for contact readings and reflective tape for noncontact.

41D940 and 41D941 also measure length.

Tachometers with Infrared Thermometer—Make contact/noncontact speed measurements and noncontact surface temperature measurements.

- IR temp. range -4° to 600°F

AMPROBE

Tachometer 6NZG4—Makes contact/noncontact speed measurements with noncontact rpm. Infrared light source. Features selectable units in contact mode and data hold. Includes cone and funnel contact tips and reflective tape.

EXTECH INSTRUMENTS AMPROBE

Tachometer 4FKR9—Measures rotational and surface speed, with selectable rpm/length units using the infrared beam or adapter. Includes 6 adapters, reflective tape, and carrying case.

- Meter/foot/inch length measurements

MONARCH INSTRUMENT

Laser Tachometer and Kit—Pocket Laser Tach 200 is a 32-function tachometer/ratometer, totalizer/counter, and timer (stopwatch). Fixed decimal points. TTL compatible pulse output can trigger data collectors or stroboscopes. Accepts remote optical

sensor 3WB47, sold separately on page 542. Tripod mountable.

Instrument 4YE86 includes 12" reflective tape. Kit 4YE87 adds remote contact assembly with concave and convex tips, 10cm linear scope wheel, 5-ft. reflective tape, and carrying case.

SHIMPO

Tachometers—Measure rotational, linear, and surface speed plus total length. 10-measurement memory. Complete with 2 cone tips, funnel tip, extension shaft, and carrying case. Speed wheel included: 6" with 21YD75 and 21YD76, 12" with 21YD77 and 21YD78.

Digital Contact Tachometers

Extech—Each includes interchangeable cone, flat tips, surface speed wheel, carrying case, and AA batteries.

- Digital
- Max./min. values

Shimpo—Measure rotational, linear, and surface speed plus total length. 10-measurement memory. Each includes 2 cone tips, funnel tip, extension shaft, speed wheel, carrying case, and AA batteries. 21YD66 and 21YD67 have a standard 6" speed wheel.

EXTECH INSTRUMENTS Shimpo

21YD68 and 21YD69 have a 12" wheel for enhanced accuracy with high-speed readings.

- Digital
- Last/max./min. recall
- 16 selectable units

Noncontact Tachometers

Each includes reflective tape for targeting. 5URH0 also includes USB cable.

Extech—Employ a laser light source for noncontact rpm measurements from long distances. On-target indicator. Include 9V battery.

- Max./min. values

EXTECH INSTRUMENTS MONARCH INSTRUMENT WESTWARD

Monarch Instrument—Pocket Tach 99 accepts tripod mount. Includes AA batteries.

- Autoranging
- Selectable max./min./last reading
- Fixed decimal points
- LED light source
